

# spotlight on ANEMIA

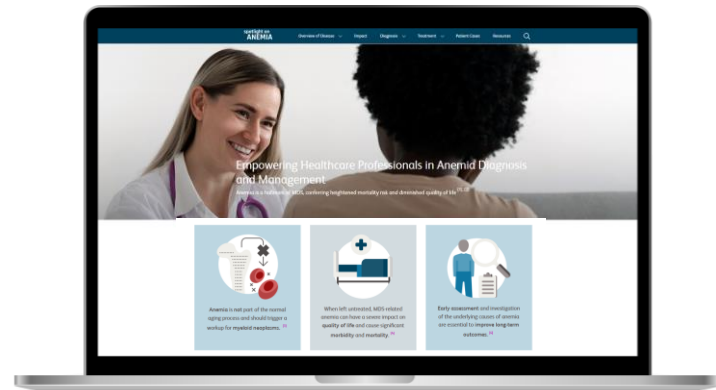

We are pleased to announce the site has been refreshed with updated content!

Visit [SpotlightOnAnemia.com](https://SpotlightOnAnemia.com) to learn more

**Spotlight On Anemia** is an online educational site that highlights the importance of identification and management of patients with anemia and potential associated lower-risk myelodysplastic syndromes (MDS).

Key topics include:

- Causes of anemia
- Clinical impact of anemia and transfusion dependence
- MDS pathophysiology and prevalence
- Identification, diagnosis, and prognosis of MDS-associated anemia
- Management goals and classes of treatment

Site content is focused on anemia and is not product/product-class specific.

## Additional resources on the site include:

- An expert moderated video
- A hypothetical patient case
- A resource hub with links to sites and tools, including clinical guidelines, risk stratification calculators, QoL measures, learning modules, and advocacy groups
- 2 downloadable pocket guides on diagnosis and treatment
